

Starshine

By Jamie Pahl

Starshine, shine down upon the earth,
Light the path with beams of love,
Show me the way to heaven's door.

(Chorus)

Heaven gleams its light
A twinkle here and there
From the stars of night
All these wonders God did share.

From the mountain tops
Did the east wind blow
That mighty sound of angelic choirs
And heavenly hosts abound in one
To the call of trumpets towards the throne.

Dear Lord, please open your gates,
That I might come into your arms.
For I see you through the star-dusted clouds,
Your radiant beams.

(Chorus)
